Don't Blame "Spring Fever" For That Down-and-out Feeling

Your Blood Needs a Thorough
Cleaning Just Now.

As Spring approaches, the impurities that have been accumulating in the system throughout the winter begin to clog up the circulation, causing a general weakness and debilitated condition that is generally known as "Spring fever."

The first symptoms are usually a loss of appetite, followed by a gradually lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Children just at this season are peevish and irritable, and become puny and lifeless.

The whole condition is but the result of impurities in the blood that

have been accumulating and make themselves felt more distinctly with the change of seasons. They show that nature needs assistance in giving the system a general housecleaning.

Everybody just now needs a few bottles of S. S. S., the great vegetable blood remedy, to purify their blood and cleanse it of impurities. It is good for the children, for it gives them new strength and puts their system in condition so they can more easily resist the many ailments so prevalent in summer. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

ANOTHER ACHIEVEMENT SCORED BY AIRPLANES

Hundred Miles an Hour Made
on Mail Route, New York
to Washington.

(Associated Press.)
New York, May 15.—Lieut. Torey Webb, of the aviation section of the signal corps, left Belmont Park, L. I., at 11:30 o'clock this morning en route to Washington with the first consignment of mail to be delivered by aeroplane in this country.

Washington, May 15.—America's first aerial post service became a reality today. Skimming the skies between Washington and New York, airplanes, which started from the two cities simultaneously, carried consignments of mail at the rate of 100 miles an hour, and 24 cents an ounce. And the institution of the service marked another step in the record of achievements since 1832, when the senate boasted that letters had been "brought from New York a distance of 250 miles, in thirty-six hours."

The plane leaving New York at 11:30 o'clock was scheduled to arrive in Philadelphia at 12:30 o'clock and in Washington at 2:30 o'clock, the time for the transportation by train being from six to seven hours. The air route will effect a saving of at least two hours in the delivery of mail at terminals, but a much greater saving will be made on account of the special delivery features in the cities and earlier train connections. In some instances, according to the postoffice officials, the saving may amount to as much as twelve hours by making connection which will avoid delivery going over until the following day.

Provision has been made against delay resulting from accidents to the planes, relief machines and landing fields being provided at Baltimore, Havre de Grace, Wilmington and New Brunswick, N. J. The service started with twelve planes, three at Washington and New York and six at Philadelphia.

Parcels will be carried at the same rate as letters and will be given special delivery service in the city of destination. The packages, however, must not exceed thirty inches in girth and length combined, nor weigh more than two pounds.

The special stamp provided for the service is seven-eighths of an inch long and three-fourths of an inch wide and bears an airplane in flight. The numerals "24" appear in circles in both lower corners. The border design is red and the airplane blue, forming with the white background the national colors.

Arriving at Philadelphia, the following connections will be made with mail trains to points outside the line of the air route. At 4:32 p.m., for Atlantic City; 5:30 p.m., Camden; Gloucester, Vineland and Millville, N. J.

BAPTISTS DEBATE WOMAN SUFFRAGE

Convention at Hot Springs,
Ark., Faces Question of
Equal Representation.

(Associated Press.)
Hot Springs, Ark., May 15.—The sixty-third session of the Southern Baptist convention opened here today to take action on matters of church conduct, and to hear reports from its three administrative boards, which leaders declare disclose the most successful year in the history of the church. Interest in the convention centered largely in the contest between advocates of "woman suffrage" in the convention and its opponents.

The question as to whether the women of the denomination should have direct representation in the convention had been a perplexing one to the convention for several sessions.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated
breath feverish and
stomach sour?

"California Syrup of Figs"
can't harm tender stom-
ach, liver, bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs" then don't worry, because it is perfect; harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—(Adv.)

Debate on the proposition centered mainly upon the interpretation which is to be put on Paul's injunction to the women of ancient Corinth to be silent in the temples of Christ, as written in his epistle to the Corinthians. Advocates of equal suffrage are firm in their belief that Paul's advice was occasioned by conditions which were peculiar to Corinth at that time, rather than referring to the conduct of women in general.

Opposition to the suffrage amendment also came from delegates who feared that participation in conventions by the women of the church would mitigate against the work which now is being done by the Woman's Missionary union. Several of the western state conventions already have granted equal suffrage to the women, since it is given to each state convention to direct its own church work.
